The screenshot shows the 'Web Without Waiting' software interface. At the top, a title bar reads '"Web Without Waiting"™ Scheduler'. Below it, a menu bar contains 'CLIENT'. A large text area on the left says 'To view Website, double click on Link. To sort links by name, date, size, frequency or display space used', with a 'RIGHT click' instruction. A table lists links with columns for Title, Alternate Title, Space used, and Download started at. The table contains four entries for CNN.com and Northern Light Search.
